Remote attestation

- **주요 이슈**

  - Milestone

    - Toy system (7월초) – toy system 수준? (이후 어떤 step으로 진행할지)

    - GMMP(client) integration (??)

    - ThingPlug(server) integration (??)

  - 필요사항

HW Crypto Lib

- ## 주요 이슈

  - (Not a scope of this project) Authorization

  - Key type (binding keys for symmetric key, signature keys for asymmetric key) : But is signature key valid? How can the server trust it?

  - Key spec

  - API sets : How to revoke keys?
